

Kainat Siddique

Cyber Security Engineer

Plot 200 Street 1, I-10/3 I 10/3 I-10
Islamabad
Pakistan

+92 (307) 9019820
✉ ksaddiq25@gmail.com

Cyber Security Engineer with 2+ years experience currently performing the role of Security Engineer at Cydemic with expertise in 24/7 monitoring, SIEM/EDR, incident investigation, escalation handling, and SOC SOPs aligned with SANS, NIST, and MITRE frameworks.

Deployed a full-featured SOC using Wazuh, TheHive, and ELK Stack for real-time monitoring and structured incident response. Skilled in detection engineering, threat hunting, Python automation, SOAR integrations, Jira-based ticketing, and conducting tabletop exercises.

Experienced in penetration testing, pre-sales security consultations, and mentoring SOC analysts. Strong background in account integrity, anomaly detection, ad fraud monitoring, and secure data handling focused on building risk-aware, intelligence-driven Cyber operations.

Certifications

- EC Council **Certified Ethical Hacking (CEH).**
- The SecOps Group **Certified Network Security Practitioner (CNSP) .**
- Mastermind **ISO/IEC 42001:2023 Lead Auditor.**
- Hack & Fix Academy **Certified Phishing Prevention Specialist (CPPS).**
- Masterind **ISO/IEC 27001:2022 Lead Auditor.**
- Red Team Leaders **Certified Cybersecurity Ethical Professional (CCEP).**
- Red Team Leaders **Certified Red Team Operations & Methodology (CRTOM).**
- TryHackMe **SOC Level 1.**
- Red Team Leaders **Foundations of Log Analysis for Cyber Defense.**
- Red Team Leaders **Malware Analysis Introduction v1.**
- TryHackMe **Junior Penetration Tester.**

Professional Trainings

- CloudGuru **AWS solution Architect.**
- CBT Nuggets **Network Plus / Linux Fundamentals.**
- CTP **Cyber Training Program,**

Professional Skills

Detection Engineering.

Gap Assessments, Threat Hunting, Threat Research, Security Hardening, Purple Teaming

Intrusion Analysis/SIEM Tools.

ELK Stack, Crowdstrike Falcon, Azure Sentinel, Wazuh

Security Tools.

Maltego, NMAP, Wireshark, Metasploit, Nessus, Nmap, Mobsf, AndroidADB, SonarQube, The Hive & Jira

Offensive Security Tools.

Maltego, NMAP, Wireshark, Metasploit, Nessus, Nmap, Shodan, theHarvester, wayback, waymore, dirsearch, hping3, cPanel Snipper, Zphisher, msfvenom, photon, SQLmap, Burpsuite, Autopsy

Tool languages and Courses.

Kibana Query Language, Kusto Query Language, Elastic Search Query, Python, C++, C, Computer Networks, Data Structures, Objected Programming, Information Security, Operating System

Experience

- 2025 - Present **Security Engineer, Cydemic, Islamabad.**
- Performing Cyber Security operations and deploying full-scale SOC's for internal and client environments.
 - Designed and implemented multiple **Wazuh-based SOC deployments**, integrating with **TheHive, ELK Stack**, and Python-based automation for real-time monitoring and alert triage.
 - Conducting continuous **Network/Host monitoring**, detection engineering, and threat hunting across multiple environments.
 - Performing incident response, creating automated workflows, and integrating SOC operations with **SOAR tools** for faster resolution.
 - Mentoring SOC analysts, conducting technical workshops, and running tabletop exercises to strengthen breach response readiness.
 - Performing penetration testing and providing detailed reports with actionable remediation.
 - Ensuring SOC operations comply with **SANS, NIST**, and **MITRE** frameworks.
 - Engaging with clients for cybersecurity consultations and improving internal SOC capabilities through deployment optimizations and advanced monitoring strategies.
 - Performing Web, Mobile App, Internal and External Penetration testing.

Feb 2024 - **Security Engineer**, *Merik Solutions*, Islamabad.

- 2025
 - Continuously monitored **Network/Host** in a **24/7 SOC environment** using **SIEM/EDR**.
 - Investigated **Logs/Events** and escalated security incidents.
 - Executed **SOC standard operating procedures** effectively.
 - Designed and deployed a full-featured internal SOC using **Wazuh**, **TheHive**, and **ELK Stack**.
 - Integrated **Jira** with SOC tools for alert management and ticketing.
 - Mentored SOC team members, conducted Python automation workshops, and tabletop exercises for incident response readiness.
 - Aligned SOC practices with **SANS**, **NIST**, and **MITRE** frameworks.
 - Conducted pre-sales cyber security client meetings and penetration testing (Mobile, Web, internal/external networks).

Education

2014–2018 **Bachelors in Information technology**, *University of Gujrat*, .
